

Equipping Young People To Be Influential For God.

CAN WE EXPLORE HOW WE CAN HELP RESOURCE YOUR YOUTH WORK?

Missional Generation is about equipping young people to be influential for God in every arena of life. Our work is to help the Church strengthen its voice and be a cutting edge in society. We are convinced that young people can ignite this into action.

We work hard to offer an effective network for churches, youth leaders and young people across city and regional lines. We want all to feel included and to be equipped and supported in order to serve their local church and community.

We offer a range of experiential learning opportunities which will enable youth leaders and young people to receive Mission Academies training and take part in united missions both locally and across the M62 Corridor. In addition, we offer access to online teaching resources and relevant, missional and inspiring life stories video via our web site www.missionalgen.co.uk

WE VALUE YOUTH LEADERS AND BELIEVE THAT YOUNG PEOPLE:

- Can influence their arenas of life and see culture transformed for the kingdom of God.
- Can become empowered to pray and to strengthen their faith in Christ.
- Bring valuable resources to church led mission initiatives.
- Shape towns and cities where they live.

WE PROMISE TO:

1. Support youth leaders.
2. Help churches to see their young people become intentionally missional and influential.
3. Facilitate local partnerships through unity, prayer and mission.

WHY PARTNER WITH US?

We equip

Mission Academy

We will arrange extended interactive training programmes over a number of sessions, including residential's, bringing together groups across cities and regional lines. Using unique materials developed by our experienced team Mission Academies offer young people a chance to reflect on scripture and missional theories in order to gain a fresh perspective on missional living:

As an integral part of the experience we will create space for participants to:

- Plan their own expression of mission
- Connect with ongoing expressions of mission locally through our partnerships.
- Review their experiences and consider how to apply their learning by establishing a rhythm of missional living.

We Resource

Your groups

By visiting regularly to offer input and resource such as videos, devotions and other interactive sessions into groups and churches we are in relationship with as we cheer on youth leaders. Supporting local youth leaders and young people is a high priority for us to help embed missional living on the ground.

We Gather

United mission

We arrange residential missions of either a weekend or full week that help small groups, churches and cities unite with a common focus on unity, prayerful worship and mission across city and regional lines. (Some aspects of the mission activities might be shaped by individuals attending Mission Academies).

We Pray

United prayer for youth and leaders across city lines

We offer networking, prayer and resource days for youth leaders to share information and ideas and to work out together what God is saying for the North. Times like these are done in partnership with friends of Missional Generation.

THE CONNECTION
BETWEEN THE TWO
CITIES OPENS UP HUGE
OPPORTUNITIES FOR
EVANGELIZATION.

I FOUND THAT THIS
LEEDS BRADFORD
THING ISN'T JUST A
THING:- IT'S THE
BEGINNING OF A
PANDEMIC.

IT IS ENCOURAGING TO KNOW SO
MANY PEOPLE FEEL THE SAME
AND WANT TO ACHIEVE THE
SAME OBJECTIVE AND LOVE
GOD.

Our Desire Is:

To draw together a multitude of resources, especially key people and investors from every sphere of life to help inspire and guide young people from their own experiences of living missional influencing across society. To see young people learning and working together as they look to become organically missional.

Our Belief Is:

To see a united front of individuals, churches, charities and movements come together to equip, train, empower and release a generation into the intimate depths of Christ as well as to display His wonders to their peers in school, neighbourhood, friendship groups and other areas of life...all with a missional focus. To disciple a generation to develop a sacrificial mindset through participating in missional learning and practice.

Our Intentions Are:

To help young people develop as individuals who become an active resource, both sharing Jesus and knowing how He wants to use them: for example standing as agents against injustice both locally and globally. To teach them to see, learn and feel the way Christ feels and to declare in prayer the things that God is revealing and wanting to awaken across the UK.

8 POPULAR ARENAS OF LIFE WHERE YOUNG PEOPLE SPEND THEIR TIME

- 
1. Socialising
 2. Church
 3. Hobbies
 4. Neighbourhoods (city)
 5. Education
 6. Families
 7. Jobs
 8. Social Networking (Gaming)

These are the places and spaces where young people spend their time. Missional Generation equips them to see these as their current mission fields for God.

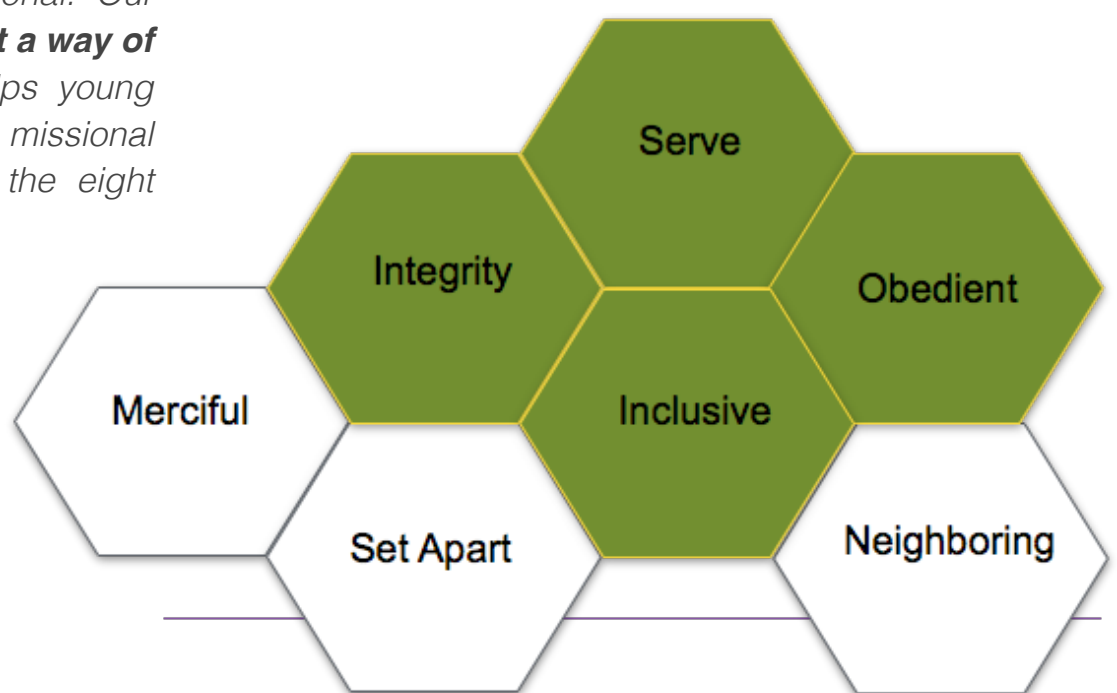

His heart is to see how a generation can start to impact the different spheres of industries and societies.

LEARNING AND APPLICATION

Missional Generation draws on well-established principles of learning and teaching where people gain considerably more understanding as they reflect on their learning with others and have the chance to apply it. We aim to see a radical step-change in learning and application, strengthened as they are given the chance to become involved in delivering and teaching material to others. Missional Generation feels this is a vital process.

WE SHARE ABOUT 7 CHARACTERISTICS OF MISSIONAL LIVING

Our teaching materials support young people to develop a rhythm of living that is missional. Our unique approach that: **"It is not a race but a way of living that creates transformation"** helps young people reflect on seven characteristic of missional living and how they apply them within the eight different spheres of life they inhabit.

***Missional Living is not a race to the finish line.
It a journey to seek kingdom transformation.***

IT IS MORE IMPORTANT THAN EVER...

For the Church to address the ways that people learn and to foster the skills they need to live missional in all walks of life. As Missional Generation partners with the Church to facilitate new ways for young people to learn life-based skills by actively addressing local needs, the Church will see a spiritual awakening amongst a generation as young people:

{1. Live as missionaries} {2. Impact societies} {3. Re-connect back into churches}

If this shift of teaching and practice is to take place we advocate a greater emphasis on unity, sharing resources and joint working. These will be the driving force that sees Christian charities and churches investing heavily into a generation. Missional Generation will enable this through its strong network of honest relationships and communication with many organisations and individuals across the M62 Corridor.

MISSIONAL GENERATION GOVERNANCE AND ACCOUNTABILITY:

The Charity (registered CIO 1156660) is accountable to a Board of Trustees drawn from a cross-section of Christian traditions and youth ministry organisations. We work in relationship with Scripture Union as a Local Ministry Partner. This ensures robust standards of professional development and compliance with good practice and charity law. Any projects, ideas or changes of direction planned by the Charity are subject to approval by the Board of Trustees. This ensures that both unity and transparency are at the centre of Missional Generation's work.

In addition, Missional Generation shares its direction, intentions and resources with both local youth workers and national youth ministry providers who have partnered with our vision and who input wisdom and guidance, such as Soul Net (Soul Survivor) and Urban Saints.
