

Augmented Reality Compatible Devices

To use the New Wine Family AR app, you will need to have a smart device that has the capability to use Augmented Reality. As Augmented Reality is a recent idea, devices will generally need to be under 3 years old. Phones under this age will be able to use Augmented Reality apps as they will have the ability to use 3D modelling and ARCore. Below you will see a list of Android and Apple devices that have the capability to do AR activities:

Find out if your iOS or iPadOS phone / device supports AR and ARCore.
